CHILDREN NEED HELP

Child support is designed to meet the needs of children while being fair to both parents. The amount that will be paid is based on each parents' income.

Child support helps pay for things that all children need, such as food, clothing, housing, transportation, childcare and school supplies. Regular child support payments can make the difference between a child's financial security and living in poverty.

Children need financial support now more than ever. When children have two parents that are actively involved emotionally and financially in their lives, they are less likely to:

- *Be financially disadvantaged*
- *Drop out of school*
- *Use drugs or alcohol*
- *Become teen parents*
- *Get into legal troubles*
